

Description

Style 4606 tape is a woven glass fibre tape made of multiple glass layers stitched and glued together.

Application

Style 4606 can be used for oven seals, pipe lagging, ducting gaskets, hose and cable protection and sealing over bolts. Glass fibre products operate at up to 550°C and handle momentary higher temperature excursions.

Size - Style 4606 Packing

| Thickness | Width | Meter Per Roll |
|-----------|-------|----------------|
| 2mm | 25mm | 30m |
| 2mm | 40mm | 30m |
| 2mm | 50mm | 30m |
| 2mm | 65mm | 30m |
| 2mm | 75mm | 30m |
| 2mm | 100mm | 30m |
| 3mm | 25mm | 30m |
| 3mm | 40mm | 30m |
| 3mm | 50mm | 30m |
| 3mm | 75mm | 30m |
| 3mm | 100mm | 30m |
